ITALIANO Dallo splendido Parco Urbano di Ferrara si procede controcorrente rispetto allo scorrere del Grande Fiume verso Bondeno. È consigliata una sosta negli agriturismi della zona, prima di rientrare verso la città collegandosi alla bellissima ciclopista del Burana, una via interamente alberata che conduce sino all'ingresso di Ferrara, costeggiando il canale omonimo.

Note

Itinerario di media lunghezza senza particolari difficoltà, pianeggiante, segnalato e quasi completamente su ciclabili (FE213, FE20, FE101). È interamente asfaltato tranne un breve tratto sterrato sulla cinta muraria. Però più esposto al sole, con un lungo tratto in ombra a lato del Canale Burana. Prestare attenzione agli attraversamenti stradali da effettuare nei punti opportunamente segnalati.

ENGLISH From the beautiful City Park of Ferrara proceed counter current to the flow of the Great River to Bondeno. We recommend a stop in the tourist farms in the area, before returning to the city by the beautiful Burana cycle route, a fully tree-lined path that leads to the entrance of Ferrara, along the canal.

Notes

Medium length route without any particular difficulty, flat, marked and almost entirely on trails (FE213, FE20, FE101). It's all paved except for a short stretch of dirt road on the Walls. Mostly sunny, with a long stretch in the shade at the side of the Burana Canal. Pay attention to the road crossings to be made at the properly marked points.

GERMAN Vom wunderschönen Stadtpark von Ferrara aus folgt man dem großen Fluss stromaufwärts, in der Nähe von Bondeno. Sie sollten unbedingt in den Bauernhöfen der Gegend eine Pause genießen, bevor Sie wieder in die Stadt fahren, auf dem schönen Radweg von Burana (siehe S. 12), der völlig mit Bäumen bepflanzt ist, und der nach Ferrara führt, dem Kanal entlang.

Anmerkungen

Mittellange Route, ohne besondere Schwierigkeiten, flach, signalisiert und fast völlig aus Radwegen bestehend (FE213, FE20, FE101). Komplett asphaltiert mit Ausnahme eines kurzen Schotterwegs auf dem Mauerring. Der Großteil davon ist der Sonne ausgesetzt, mit einer langen Strecke im Schatten, an der Seite des Kanals Burana. Passen Sie auf, wenn Sie an den signalisierten Stellen die Straße überqueren.
